## The COVID-19 vaccine is the best way to keep yourself, your family and your community safe.

In communities where vaccination rates are high, infection rates are low. There's a lot of information about COVID-19 and the vaccine, and it can be overwhelming.

We can help clear things up!

If you or someone you know still has questions about whether you should get vaccinated or not, where to go to get your vaccine, and even how to get there, we have answers.

For more information, contact the Stratford Health Department.
