Michael Rice said he used  
364 spray paint cans to  
complete his downtown  
Hartford mural that depicts  
boy releasing fireflies  
in a mason jar.

...his love of art,  
...they were in-

...ther  
...at  
...happier.  
...Today, for Rice, painting is a way to make a living, but  
...it's also his therapy and passion, he said.  
...I can't even imagine what my life would be like if I was  
...ill doing the grind," Rice said. ■

...clude an understanding of brand strategy, and how to  
...present your work.  
...Have a cohesive look and feel to some of your work  
...and what you are trying to say, have a message," Rice ex-  
...plained, while also recognizing that "sometimes you have  
...to sacrifice some of that to fit within other people's vision,  
...whatever it is you're getting paid to do."  
...He also recommends that people interested in artistic  
...careers, or any non-traditional trade, think about their  
...path in more open-minded ways.  
...But one thing's for sure, he said. If you know you aren't  
...passionate about what you're doing, you're almost always  
...better off pursuing something else that will make you  
...happier.

# 50<sup>TH</sup> ANNIVERSARY

## No time wasted

**For 50 years, USA has been at the forefront of waste and recycling innovation.**

And while a lot has evolved over the last half century, one thing has always remained constant — our commitment to the customers we serve and the communities we call home. It's this very promise that drives us to stay on the leading edge of our industry and continually find new and better ways to ensure a healthy planet for generations to come. Taking opioids like Oxycodone is extremely dangerous for so many reasons. That's why it's important to only take pills that are prescribed specifically for you—safely by your doctor. So, when someone tells you it's ok to take drugs that aren't meant for you, take a moment instead, and get reliable information from a trusted source or healthcare professional.

The Loomis Communities

# LIFE IN FULL

# “Everyone has a story to tell.”

Everyone is so friendly. I met someone the other day who grew up one block over from me – and we never met until now! There are so many interesting people from different backgrounds—and so many chances to make new friends,

discover old ones, and to continually exchange ideas and learn from each other. I wouldn't call myself a social butterfly, but here I have definitely felt more comfortable spreading my wings.

## \* Social

You feel it the moment you step into any of The Loomis Communities—a warm and welcoming atmosphere, where if you like being social, it's there for the taking. New friendships are formed and old friends cherished, making it even more fun to participate and enjoy interesting programs alongside our diverse residents and team members.

"I'm so happy to be among people, a real community, not only for the social aspects, but to be there for each other no matter what life brings."

Tai chi, mindful eating, long walks along the spectacular grounds and quiet moments all help me feel at peace here.

\* Emotional

Mutually satisfying connections with the people around us, and with ourselves is a key to emotional well-being. The Loomis Communities offers environments where you can reach emotional growth your way by being your authentic self, exploring tools to direct feelings and manage life's challenges as they happen, and savor the moments of joy and fulfillment that come with being together.
